2021

DODGE CHALLENGER

BROTHERHOOD OF MUSCLE

We've always been devoted to distancing ourselves: from the pack, from the competition, from the mundane and – most importantly – from convention. Every Dodge Brand vehicle in our 2021 lineup is designed to deliver something decidedly unique: fierce attitude, formidable horsepower and intense performance.

CHALLENGER SRT® SUPER STOCK //

DURANGO SRT HELLCAT® //
shown in Destroyer Grey.

CHARGER SRT HELLCAT REDEYE WIDEBODY //
shown in White Knuckle.

SRT HELLCAT® // FAMILY OF LEGENDS

Challenger: a name synonymous with muscle. SRT Hellcat: a name known for extreme performance. Together, they create an intense lineup of vehicles – SRT Hellcat, SRT Hellcat Redeye and the new SRT Super Stock. Each SRT Hellcat variation yields track-ready prowess and jaw-dropping quarter-mile times.

Powered by a Supercharged 6.2L HEMI® SRT® V8 engine, Challenger SRT Hellcat delivers 717 horsepower and 656 lb-ft of torque. Two fully functional, air-sucking snorkels on the hood and an illuminated Air-Catcher® headlamp feed cold air to the engine to keep it cool and efficient. SRT Hellcat clocks the quarter-mile at 127 mph.

Challenger SRT Hellcat Redeye houses a high-output version of the Supercharged 6.2L HEMI SRT V8 engine. Combined with 25 major component upgrades, the engine unleashes an unthinkable 797 horsepower and 707 lb-ft of torque. Redeye reaches a top speed of 203 mph and runs a 10.8-second quarter-mile at 131 mph. A fully functional dual-snorkel hood provides maximum air intake to the powerplant. SRT Hellcat Redeye shows up race-ready with standard Torque Reserve, SRT Power Chiller® and After-Run Chiller, all grabbed from the SRT Demon archives. Two final drive ratios are offered: a standard 2.62:1, or available 3.09:1 for increased launch capability.

The new Challenger SRT Super Stock uses the same Supercharged 6.2L HEMI high-output V8 engine that powers SRT Hellcat Redeye, but it takes its ferocity further with a revised powertrain and TorqueFlite® 8HP90 8-speed automatic transmission. The result is 807 horsepower (on pump gas), 3.25-second 0 – 60 mph acceleration, elapsed quarter-mile time of 10.5 seconds at 131 mph, and 168-mph top speed. Challenger SRT Super Stock is built on a standard widebody and features a new competition suspension, standard lightweight aluminum four-piston Brembo® brakes, and a wheel and drag radial combination designed to give customers better grip off the line.

All SRT trim levels feature Drive Modes specific to the vehicle. The available SRT tuned Bilstein® Three-Mode Adaptive Damping Suspension System provides driver-selectable settings including: Street (Auto) Mode = sporty but compliant ride; Sport Mode = firm, maximum handling; and Track Mode = firm, maximum handling plus performance shifting and a gear-holding feature to suit any driver's needs. The SRT Drive Modes, accessed via the Uconnect® touchscreen, offer selectable settings for Street (Auto), Sport and Track. A custom setting lets drivers tailor their experience by individually adjusting horsepower, transmission shift speeds, steering effort, paddle shifters, traction and suspension preferences. The standard SRT Performance Pages brings critical vehicle performance data to the driver's fingertips, while race options give the driver the ability to access Launch Control, Shift Light and Line Lock.

CONTROL AND CONQUER

SPINNING ISN'T WINNING. To help you hook, we went back to the Demon toolbox to give Challenger SRT® Super Stock serious traction: 18 by 11-inch wheels with a Low-Gloss Granite finish, wrapped in sticky 315 Nitto® Drag Radials at all four corners • Lightweight all-aluminum Brembo® four-piston brake calipers and 14.2-inch vented rotors • Performance-tuned asymmetrical limited-slip differential with a 3.09 final drive ratio

BOLDLY GO

WHAT A LEGEND LOOKS LIKE. Bold, aggressive and completely unapologetic. The performance hood with dual snorkels, menacing Bi-functional halogen projector with quad halo LED surround, Air-Catcher® headlamps, split LED taillamps and available heritage stripe options tell a story of intimidation and prowess.

///// Challenger SRT Hellcat® shown in F8 Green and Challenger SRT Hellcat shown in Frostbite. Professional drivers. Closed course.

CHALLENGER SRT HELLCAT® //
with standard illuminated Air-Catcher® Intake

1320

Subtle isn't what this car is about. It was conceived to live its best life on the drag strip. Its purpose is maximum acceleration. It's outfitted with everything needed to floor it on the last yellow: TransBrake, drag suspension, Adaptive Damping Suspension, 275/40R20 102Y Drag Radial tires and 20 by 9.5-inch Low-Gloss Black drag wheels with knurled bead seats. This is the 1320, and it's only available on R/T Scat Pack. The unique fender badge lets everyone know you aren't messing around; the badge on the instrument panel reminds you that you're well-equipped for the run. Settle in, select Drag Mode to adjust the traction and stability control settings, grip the Alcantara® wrapped performance steering wheel, wait for double yellow lights, then engage the TransBrake, release when the Christmas tree goes green and move down the quarter-mile with the full force of the 6.4L HEMI® engine and its 485 horses and 475 lb-ft of torque.

///// Challenger R/T Scat Pack shown in Pitch Black with available 1320.

BADASS BODY LANGUAGE // Challenger has perfected the art of saying everything without saying a word. Challenger Widebody configurations speak to performance, boldness and power through a more aggressive stance. Available on R/T Scat Pack, SRT Hellcat® and SRT Hellcat Redeye and standard on SRT® Super Stock, fender flares are wider and add 3.5 inches to overall vehicle width. The extra room makes room for track-ready 20 by 11-inch forged aluminum wheels riding on sticky 305/35ZR20 Pirelli® P ZERO™ tires on SRT Hellcat and Scat Pack models. SRT Super Stock receives 18-inch forged aluminum Low-Gloss Granite drag wheels and P315/40R20 102W Nitto® Street-Legal Drag Radials.

In addition to extra rubber on the road, R/T Scat Pack Widebody includes six-piston Brembo® front brakes and an Adaptive Damping Suspension. All other widebody models employ a standard widebody competition suspension that lets you take curves and corners with confidence.

///// Challenger SRT Hellcat Widebody models shown in Indigo Blue, F8 Green and Go Mango with available dual stripes.

///// SRT Hellcat® shown in F8 Green with available dual stripes. Professional driver. Closed course.

///// Challenger R/T Scat Pack with flat-bottom steering wheel included with Widebody and Dynamics Packages, and live-stitch instrument panel included with Plus Package.

IF YOU KNOW, YOU KNOW // It looks like any other Challenger, but its packaging is deceiving by design. The Challenger SRT® Super Stock gets its name from the "Super Stock" class of vehicle in drag racing. The class is defined by vehicles that look like ordinary passenger vehicles but are really highly modified race cars. What this powerhouse lacks in badging, it more than compensates for it with the beast under the hood. The only tells are 18 by 11-inch wheels with a Low-Gloss Granite finish and Nitto® Drag Radials.

///// Challenger SRT Super Stock shown in Go Mango.

SHAKE IT UP

///// Challenger R/T Scat Pack shown in Hellraisin with Shaker Package.

///// R/T SCAT PACK

Behind the retro-inspired Bumble Bee badge is a nameplate and trim level steeped in muscle-car heritage. Challenger R/T Scat Pack gets its prowess from the legendary 392 HEMI® V8 engine. The numbers tell the rest of the story: 485 horsepower, 475 lb-ft of torque, 0 – 60 mph in the low-4-second range and a quarter-mile in the mid-12-second range. This pavement-pounding power is backed by four-piston Brembo® brakes, Three-Mode Electronic Stability Control (ESC)[1*] with Full-Off Mode, high-performance suspension with Bilstein® shocks and 20 by 9-inch aluminum wheels. Every R/T Scat Pack model includes Dodge SRT® Performance Pages that features everything from Launch Control to a g-force meter to drag-race timers. This real-time data can also be accessed on either the standard 7-inch reconfigurable digital display housed between the gauges or the standard 8.4-inch Uconnect® touchscreen. SRT Drive Modes offer the ability to customize steering feel, transmission shift points, throttle response, ESC[1] tuning and suspension firmness (if equipped with Adaptive Damping Suspension). Race-inspired seats feature a Scat Pack Bee logo embroidered on either a standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts.

*About this brochure: all disclosures can be found on the last page. Professional driver. Closed course.

R/T SCAT PACK WIDEBODY // Beefed-up stance, bold performance and booming exhaust notes are just some of the R/T Scat Pack Widebody features that will get you noticed. The available Shaker Package supplies a bigger performance kick through a Mopar® Cold-Air Intake and full-floating, open-element Shaker hood scoop.

For a custom feel, opt for the newly available T/A Package that includes a Black grille and bezel with dark R/T grille badge, T/A bodyside graphic and spoiler decal, 392 fender decal, Black Satin-painted hood, satin wrap roof and decklid, Black fuel-filler door, and 20 by 11-inch Carbon Black aluminum wheels. This package also features a Mopar Cold-Air Intake, illuminated Air-Catcher® headlamps and functional hood scoop. Inside, there's a retro vibe from the Houndstooth cloth Performance seats and White-face IP cluster with Gloss Black trim rings.

POWER THAT'S ALWAYS UNBRIDLED ... BUT NEVER UNHINGED

SUPERB STOPPING POWER // Standard 4-wheel antilock disc brakes provide solid stopping power. Additional stopping power comes from the available Brembo® Performance Brake System, featuring vented two-piece front rotors and four-piston front calipers for outstanding heat management and that provide superior braking performance. For superb stopping capabilities, the SRT® engineered Brembo Performance Brake System, with six-piston front and four-piston rear calipers, results in improved performance braking when paired with wind-tunnel-designed brake ducts.

///// Challenger SRT Hellcat® shown in Indigo Blue with available dual stripes in Carbon. Professional driver. Closed course.

TRACK-PROVEN TUNED CHASSIS // Intense track conditions require tightly engineered hardware. Challenger showcases a high-performance-tuned chassis that's ready to go.

SHOCK ABSORBERS // Available Bilstein® high-performance shock absorbers are precision-damped to help provide a confident, smooth ride for the typical commute while still being capable for weekend track duty.

SUSPENSION // Every Challenger in the lineup is underpinned by a proven suspension. Depending on trim level, options range from sport-tuned to competition to drag-race-specific suspension.

Movement and staying power come from a sophisticated suspension geometry and rear-wheel drive (RWD). The independent five-line rear suspension is finely tuned to help provide remarkable handling and ride comfort. A lower unsprung mass helps maintain optimum tire contact with the ground and minimize road noise.

Models equipped with a 392 HEMI® V8 engine feature unique suspension geometry that helps improve balance, cornering ability and steering responsiveness. Exclusive Bilstein shocks and a lowered suspension allow these performers to achieve 0.93 g on the skid pad.

A Bilstein Three-Mode Adaptive Damping Suspension System is available on R/T Scat Pack and standard on all SRT Hellcat® models. It offers different suspension firmness settings: Street Mode (sporty), Sport Mode (firm) and Track Mode (firmest max handling). The standard R/T Scat Pack suspension delivers performance handling through an aggressive front- and rear-camber geometry. Set at –1.2 degrees in the front and –0.75 degrees in the rear, Challenger is set up for high-speed cornering, with its tires leaning inboard at the top relative to the body.

Professional driver. Closed course.

ACTUALLY, IT IS
MY WAY OR
THE HIGHWAY

ADVANCED /////
ALL-WHEEL DRIVE

///// Challenger GT AWD shown in Pitch Black with Blacktop Package.

POWER WHERE AND WHEN YOU NEED IT // Challenger All-Wheel Drive (AWD) delivers big control exactly when you need it. The advanced automatic front-axle disconnect technologically, intuitively and seamlessly transitions between rear-wheel drive (RWD) and AWD without driver intervention. Under normal driving conditions, the front axle is disengaged and 100 percent of the engine's torque is directed to the rear wheel. When sensors indicate more traction is needed, the system automatically engages the front axle and instantly transitions to AWD Mode. These systems work with the vehicle's Electronic Stability Control (ESC)[1] System to deliver precise front-to-rear torque control while preserving unrelenting drive.

SAFETY & SECURITY FEATURES

PARKVIEW® REAR BACK-UP CAMERA[2] // This system displays the area directly behind your vehicle when the vehicle is in Reverse. Dynamic grid lines adjust with steering input to assist in parking. Standard.

PARKSENSE® REAR PARK ASSIST[3] // When your vehicle is in Reverse and moving at a low speed, the system can detect objects in your vehicle's path. When sensors detect objects in the back-up pathway, the system provides an audible and visual warning. Available.

BLIND SPOT MONITORING (BSM)[4] AND REAR CROSS-PATH DETECTION[2] SYSTEM // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminated icons in the sideview mirrors and by an audible chime. The system includes Rear Cross-Path Detection,[2] which monitors for vehicles and objects in perpendicular relationships to the vehicle while backing out of, for example, parking spots or driveways. Available.

ADAPTIVE CRUISE CONTROL (ACC)[5] // Automatically adjusts vehicle speed to maintain desired distance from the vehicle ahead. Available.

FULL-SPEED FORWARD COLLISION WARNING (FCW)[6] // Radar and camera technology combine to alert you when the system senses potential frontal impact. If you're not able to respond quickly enough, the system will transmit audible and visual warnings. Warning sensitivity can be adjusted to driver preference. Available.

ELECTRONIC STABILITY CONTROL (ESC)[1] // This system is designed to assist the driver in maintaining control of the vehicle when a loss of traction is detected. ESC[1] senses when a vehicle loses steering control and attempts to correct the vehicle's course by automatically applying the brakes at individual wheels. Standard.

RAIN-SENSING WINDSHIELD WIPERS // System sensors automatically detect moisture on the windshield and activate the wipers. Available.

READY ALERT BRAKING // The system anticipates situations when you might initiate an emergency brake stop and uses the ESC[1] pump to precharge the brake system in order to decrease the time required for full brake application. Standard.

RAIN BRAKE SUPPORT // When your car's windshield wipers have been activated, the system pulses the brake pads closer to the spinning rotors, helping to keep the rotors and pads dry for greater control and operator security. Standard.

IN TOUCH WHEREVER YOU GO

The Uconnect® system is your customizable, connected vehicle platform dedicated to safe and seamless communication, navigation and entertainment – all from one easy-to-use touchscreen.

Uconnect®

DRIVEUCONNECT.COM

Apple Watch compatibility.

COMPATIBILITY YOUR WAY

Uconnect® brings a wide range of interactive features to your vehicle and beyond through a highly intuitive communication experience.

UCONNECT PHONE[7]

Stay connected safely. Pairs a Bluetooth® phone to send and receive hands-free[7] calls. Includes:

- **DO NOT DISTURB** to route incoming calls to voice mail and suppress text messages.[8]
- **VOICE RECOGNITION** to make hands-free[7] calls, listen and respond to text messages,[8] record voice memos, and select media stations and navigation destinations.

DRAG-AND-DROP MENU BAR

We've made it easy to customize your Uconnect dashboard with your favorite features and services. Simply press the Uconnect icon on the main menu bar to view all of the available apps. Tap and hold any one of the icons to drag and drop into a personalized menu bar.

SIRI® EYES FREE[9]

Just say it. Use voice commands with Siri Eyes Free[9] and your connected iPhone® to create and send texts,[8] make and receive calls, access directions, and play music. Available.

ONE-STEP NAVIGATION

Take the best route right now. Uconnect employs GPS Navigation for audible turn-by-turn directions, and detailed 3D maps help to ensure you arrive on time. Use Voice Command and say the complete address to get directions quickly. Available.

4G LTE Wi-Fi[10] HOTSPOT

Along the way, you can upload, download, post and search. The 4G LTE Wi-Fi[10] Hotspot is improved with processing speeds that are five times faster to assist in keeping up to eight devices connected. Includes a three-month subscription with vehicle purchase. Available.

DRIVEUCONNECT.COM

Works with Apple CarPlay[11]

Display your favorite iPhone® apps right on your Uconnect® touchscreen. Access your iTunes® library, call anyone in your contacts list or just ask Siri®[9] to help you out while you drive. Get directions, make calls and send messages, and connect to Apple Music, all without pausing your drive. Standard.

works with androidauto[12]

Bring the best of Google with you in your Uconnect system. Talk to Google on Android Auto™ and get things done with your voice so you can keep your focus on driving. Easily send messages, get directions, control media and more. Just say, “Hey Google” or long-press the voice control button on your steering wheel. Standard.

SIRIUSXM® RADIO[13]

SIRIUSXM TRAVEL LINK[14]

Uconnect®

Trips are enhanced with informative and entertaining apps. Access them on your Uconnect® touchscreen as well as your smartphone. Connected technology keeps you linked to a whole new world.

SiriusXM®[13]

Listen to your favorite playlist from your connected device, then flip to SiriusXM Radio[13] and enjoy the best commercial-free music, plus every major sport and the biggest names in entertainment, news and comedy. You'll get over 150 channels, all at the press of a button. With the SiriusXM All Access[13] Package, you get every channel available on your satellite radio, and you can also listen wherever you go on your portable devices with the SiriusXM App,[13] which is included with your trial. Available.

SiriusXM TRAVEL LINK[14]

Access useful information when you need it, right at your fingertips. Get detailed weather maps, five-day forecasts and severe weather alerts, as well as sports scores and in-game weekly schedules for your favorite teams, information on fuel prices in your area and more. Your first five years of SiriusXM Travel Link[14] service are included. Available.

SiriusXM TRAFFIC PLUS[14]

Avoid congestion before you reach it. Get continuous updates on traffic speed, accidents, construction, road closures and more before you begin your travels. You will get to your destination faster and more easily than ever before. Your first five years of SiriusXM Traffic Plus[14] service are included. Available.

Uconnect® + SiriusXM GUARDIAN™[15]

Drive worry-free with SiriusXM Guardian™[15] – a premium suite of safety and convenience services that can be accessed in-vehicle or through the Uconnect® App.[32] Includes a one-year trial. Available.

SOS CALL.[16] In the event of an incident, push the SOS[16] button. You'll be connected to a SiriusXM Guardian[15] agent who will contact emergency services, provide your location and stay on the line with you until help arrives.

AUTOMATIC SOS (ASOS) is a hands-free[7] safety service that can immediately connect you with help in the event your vehicle's air bags[24] deploy. Seconds after the incident, a live agent will contact you through the Uconnect system, and alert emergency services. If you are unable to respond, the agent can direct emergency services to your GPS location.

ROADSIDE ASSISTANCE CALL[17] puts you in touch with an agent who can get you help while you're out on the road.

LOCK/UNLOCK your car from virtually anywhere.

START YOUR CAR REMOTELY.[18]

FLASH THE LIGHTS and sound the horn to help find your car.

VEHICLE FINDER[19] allows you to locate your vehicle on a map.

SEND & GO[20] enables you to send destinations to your navigation system.

THEFT ALARM NOTIFICATION.[21] Receive alerts by text, email or push notification if your vehicle's available theft alarm is triggered.

STOLEN VEHICLE ASSISTANCE.[22]

FAMILY DRIVE ALERTS.[23] Peace of mind when you hand over the keys. Allows you to set parameters to receive notifications when others are operating your vehicle.

- **BOUNDARY ALERT.** Be alerted the moment your vehicle is driven out of up to five geographic boundaries that you set.
- **CURFEW ALERT.** Be alerted if your car is being driven outside of the curfew you set.
- **SPEED ALERT.** Receive a notification whenever your car exceeds a speed limit you set.
- **VALET ALERT.** Be alerted the moment your vehicle is driven outside of a defined radius.

SMARTPHONE/SMARTWATCH APP. Access the features of SiriusXM Guardian[15] through the convenient Uconnect App,[32] which lets you use your smartphone or smartwatch to keep in touch with your vehicle from a distance.

(1) Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws. (2) Always check entire surroundings visually before proceeding. (3) Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. (4) Always check visually for vehicles prior to changing lanes. (5) This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. (6) This system is solely an alert system for the front of the vehicle that does not take any actions to change vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. (7) The Uconnect Phone requires a mobile phone equipped with the Bluetooth Hands-Free Profile. To check phone compatibility, please visit www.UconnectPhone.com. (8) Voice Text Reply feature requires a compatible mobile device that supports text messaging and Bluetooth. Visit www.UconnectPhone.com for system and device compatibility. (9) Requires an iPhone with Siri. Certain features are not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. (10) Three-month/1GB trial included with the purchase or lease of a new vehicle. Upon expiration of the trial period, purchase of a subscription is required. Wi-Fi Hotspot available through third-party subscription. Requires Internet-enabled mobile device. See dealer for details. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. (11) Requires compatible iPhone. See dealer for phone compatibility. Data plan rates apply. Vehicle user interface is a product of Apple. Apple CarPlay is a trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the US and other countries. Apple terms of use and privacy statements apply. (12) To use Android Auto on your phone screen, you'll need an Android phone running 5.0 or higher and the Android Auto App. Android and Android Auto are trademarks of Google LLC. (13) Your service will automatically stop at the end of your trial subscription unless you decide to continue service. If you do not wish to enjoy your trial subscription, you can cancel it by calling the number below. **If you decide to continue service after your trial subscription, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Fees and taxes apply. Please see our Customer Agreement at www.siriusxm.com for complete terms and how to cancel, which includes calling us at 1-866-635-2349. All fees, content and features are subject to change. (14) Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Data displays and individual product availability vary by vehicle hardware. Current information and features may not be available in all locations, or on all receivers. Weather Forecast, Current Conditions may not be available in all locations. (15) All SiriusXM Guardian-equipped vehicles come with a 12-month complimentary trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. SiriusXM Guardian is available only on equipped vehicles purchased within the United States and Puerto Rico. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. (16) In the event of a medical or other emergency, press the SOS button to be connected to a Customer Care agent who can direct emergency assistance to your vehicle's location. (17) Roadside Assistance Call connects you with an agent who will provide Roadside Assistance Service. Vehicle must be within the United States, Puerto Rico or Canada and have network coverage. Additional roadside assistance charges may apply. Check warranty for details. (18) Remote Vehicle Start is not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect in your vehicle's location. (19) To use Vehicle Finder, you must have the Uconnect App with SiriusXM Guardian installed on a compatible smartphone and have an active subscription to SiriusXM Guardian. (20) Send & Go requires a vehicle equipped with Navigation. To use Send & Go, you must have the Uconnect app with SiriusXM Guardian installed on a compatible smartphone and have an active subscription to SiriusXM Guardian. (21) Theft Alarm Notification is compatible with factory-installed alarms only. (22) Stolen vehicle police report required.
